

IN THE CLAIMS:

Please cancel claims 1-13, 17-19 and amend claims 16 and 20 as follows:

1.-13. (Cancelled)

14. (Previously Presented) A flooring system comprising a plurality of panels, at least one panel differing in at least one of aesthetic or mechanical properties from another panel of said system, each panel provided with edges, said edges being provided with means for joining, said panel further being provided with an upper side and a lower side wherein the flooring system comprises a plurality of panels where each panel is provided with an upper decorative surface and that the flooring system comprises panels with at least two of the decorative surfaces of the flooring system selected from the group consisting of a thermosetting composite, a thermoplastic composite, an elastomeric foil, a thermoplastic foil, a metal sheet, a fabric, a mineral and a mineral composite wherein at least one of the panels comprises a decorative surface comprising a thermosetting composition and at least one other panel of the flooring system comprises a decorative surface of elastomeric foil.

15. (Previously Presented) A flooring system comprising a plurality of panels, at least one panel differing in at least one of aesthetic or mechanical properties from another panel of said system, each panel provided with edges, said edges being provided with means for joining, said panel further being provided with an upper side and a lower side wherein the flooring system comprises a plurality of panels where each panel is provided with an upper decorative surface and that the flooring system comprises panels wherein at least a portion of the panels comprise an elastomeric foil as the decorative surface while the rest of the panels have a high-gloss wood design of thermosetting composite.

16. (Currently Amended) ~~The flooring system according to claim 10~~ A flooring system comprising a plurality of panels, the panels comprising a carrying panel provided with edges, said edges being provided with means for joining, said carrying panels further being provided with an upper side and a lower side wherein the flooring system comprises a plurality of panels

where each carrying panel is provided with an upper decorative surface on the upper side of the carrying panel and that the flooring system comprises panels having at least two of the decorative surfaces of the carrying panels being different with one consisting of a thermosetting composite and with another independently consisting of a decorative material selected from the group consisting of a thermosetting composite, a thermoplastic composite, an elastomeric foil, a thermoplastic foil, a fabric, a mineral and a mineral composite; wherein the elastomeric foil is selected from the group consisting of thermoplastic elastomers, synthetic rubber and natural rubber, wherein the remainder of the floor comprises panels having a decorative surface of thermosetting laminate in the form of a high-gloss wood design.

17.-19. (Cancelled)

20. (Currently Amended) ~~The flooring system of claim 17~~ A flooring system comprising a plurality of panels, the panels comprising a carrying panel provided with edges, said edges being provided with means for joining, said carrying panel further being provided with an upper side and a lower side wherein the flooring system comprises a plurality of panels where each carrying panel is provided with an upper decorative surface on the upper side of the carrying panel and that the flooring system comprises panels having at least two of the decorative surfaces being different from each other and independently consisting of a decorative material selected from the group consisting of a thermosetting composite, a thermoplastic composite, an elastomeric foil, a thermoplastic foil, a fabric, a mineral and a mineral composite, wherein the fabric comprises a needle loom carpet; and, wherein the floor also comprises an elastomeric foil.
